## Profile

I have total 2-year experience as a Java Developer. I have demonstrated a strong understanding of various technologies, particularly Spring MVC, Spring Boot. I am able to grasp complex concepts and apply them effectively in my projects.

## Project Experience

- Developed and maintained a secure Banking System using Java.
- Led the implementation of a user-friendly Hospital Management System using Java JSP and MySQL.
- Designed and developed an efficient Attendance Management System using Java and MySQL.
- Worked on the Dashboard and Recommendation Engine of Zee5 at Zee Entertainment Enterprises Limited, utilizing Spring Boot and Docker.
- Developed Bpm-Core software with 5 panels and distinct responsibilities, involving Rest-API design, coding, and deployment. Utilized Spring Boot, Hibernate, MySQL, and JPA.

## Technical Skills

- Frameworks:** Spring Boot, Micronaut, Apache Tomcat Server.
- Software:** Postman, Git, Swagger-UI, Docker.
- Databases:** MySQL, Oracle, H2.
